Free TriCore™ Entry Tool Chain

The easiest way to start with a TriBoard.

Version 4.6.2.1 (with TC275C Support)

- › We will use
 - Debugger from PLS
 - GNU compiler

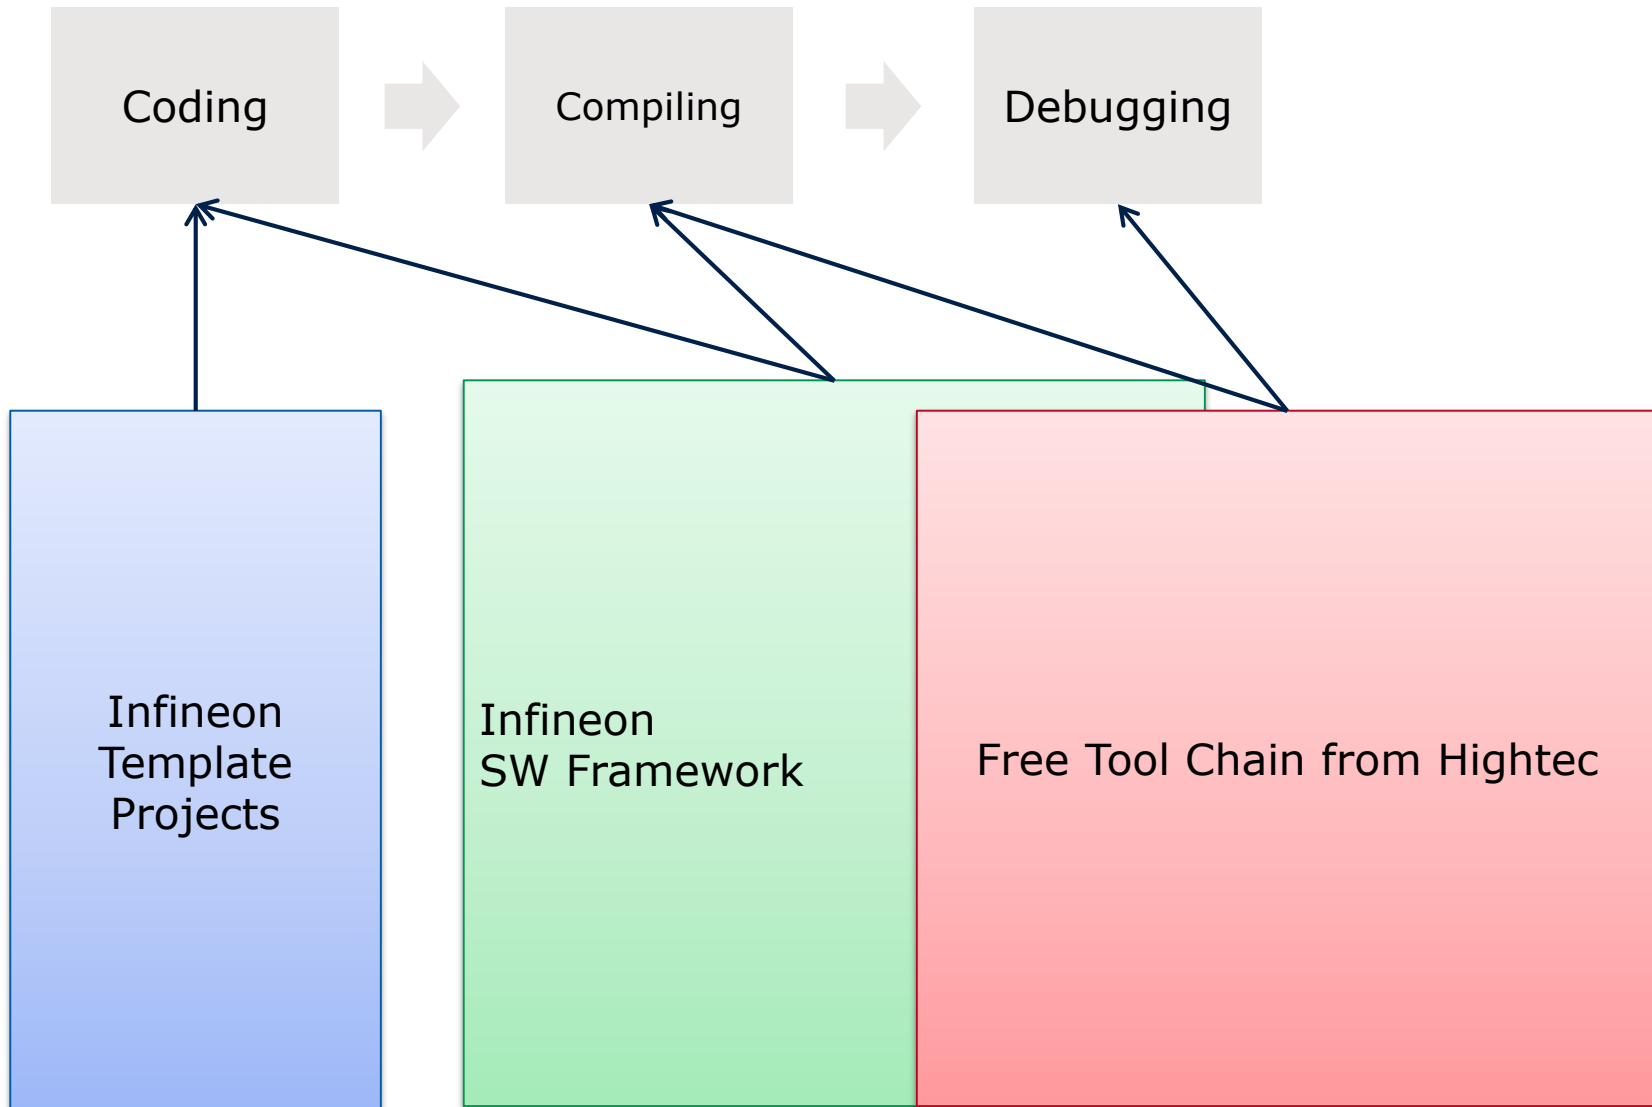

Infineon SW Framework

- › Build Environment for quick start
- › Supports three compilers (Hightec, Tasking, Windriver)
- › **Eclipse** or Command Line based compiling
- › Provides SW Templates for each derivative
 - Special Function Registers
 - Map Files
 - Startup
 - Basic Drivers
 - Main.c for every core

Tool Overview for Handson – How does it link to development ?

SW Framework installation (1)

- › Unzip the downloaded Archive

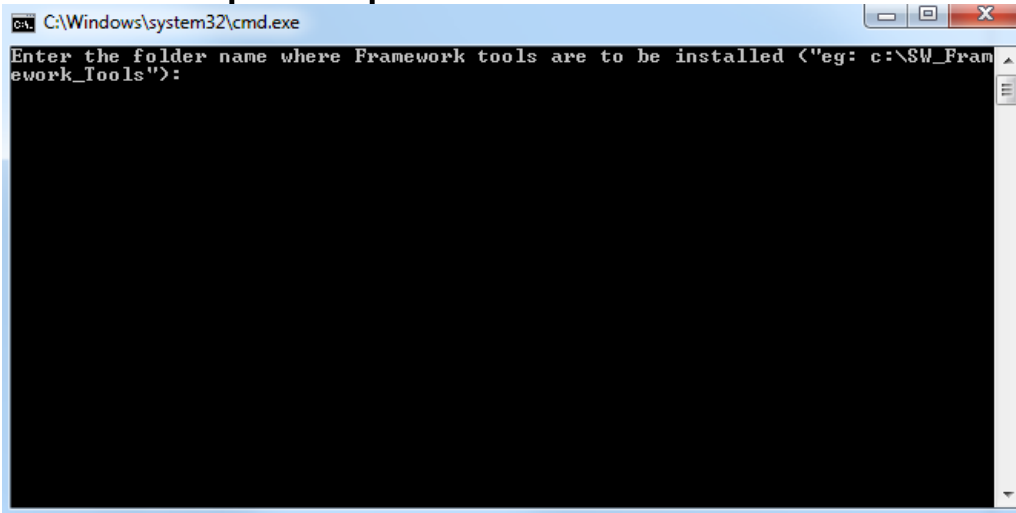

- › Navigate into the target folder and run the **install.bat**

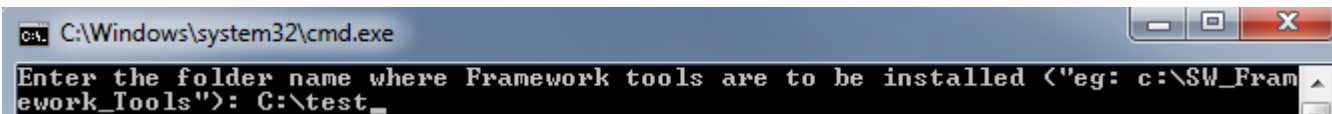

SW Framework installation (2)

- › You are prompted for the installation directory for the **tools**

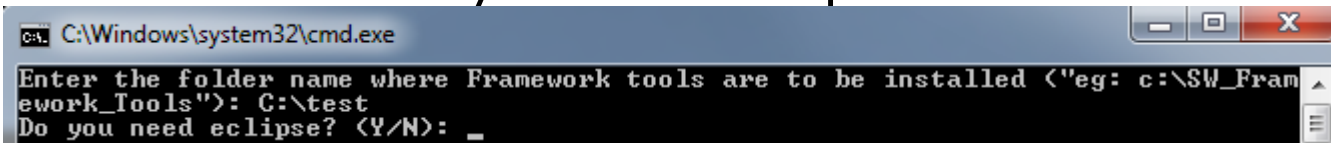

```
C:\Windows\system32\cmd.exe
Enter the folder name where Framework tools are to be installed ("eg: c:\SW_Framework_Tools"):
```

- › Enter the correct path that you find suitable

```
C:\Windows\system32\cmd.exe
Enter the folder name where Framework tools are to be installed ("eg: c:\SW_Framework_Tools"): C:\test_
```

- › You are asked if you need Eclipse

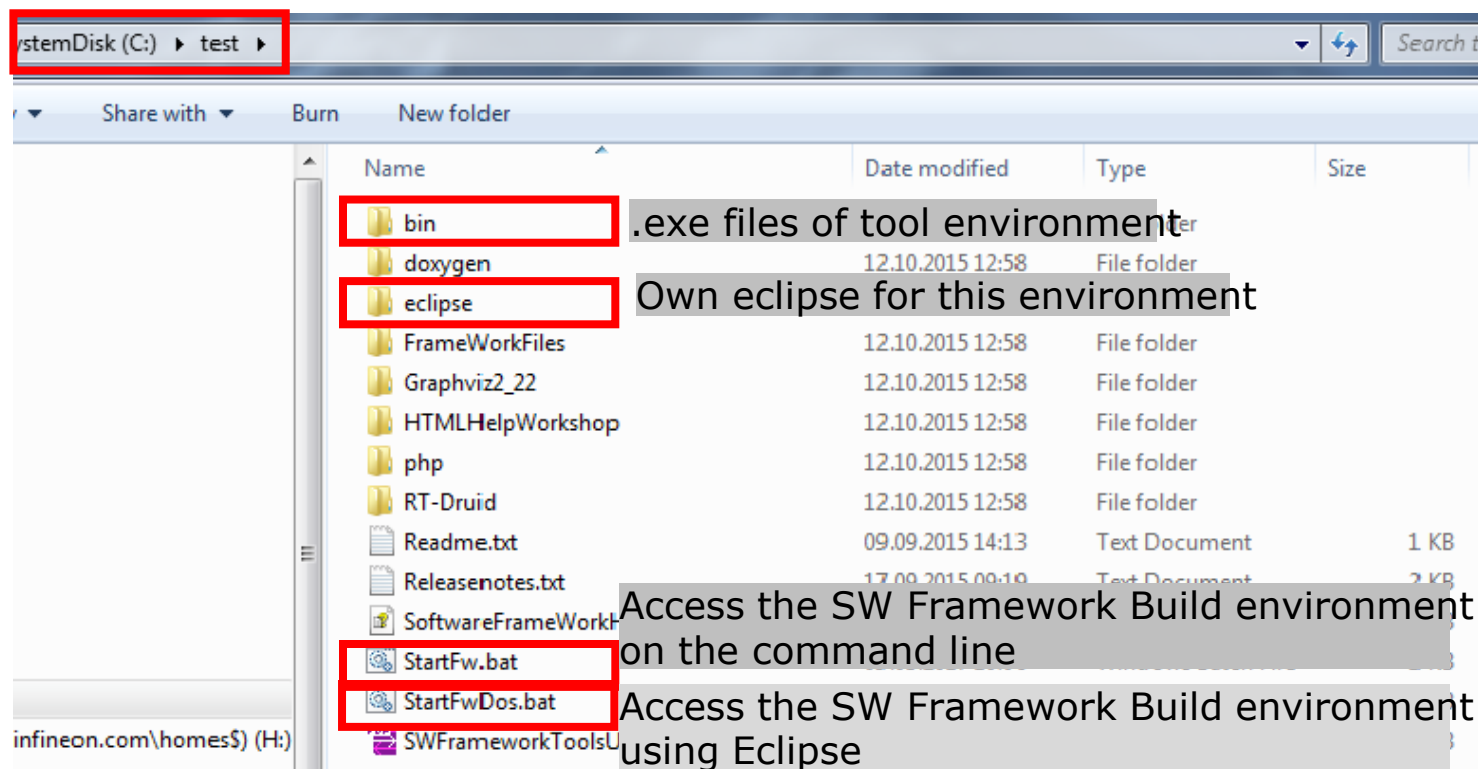

```
C:\Windows\system32\cmd.exe
Enter the folder name where Framework tools are to be installed ("eg: c:\SW_Framework_Tools"): C:\test
Do you need eclipse? (Y/N): _
```

- › Please answer with **yes**

SW Framework installation (Result check)

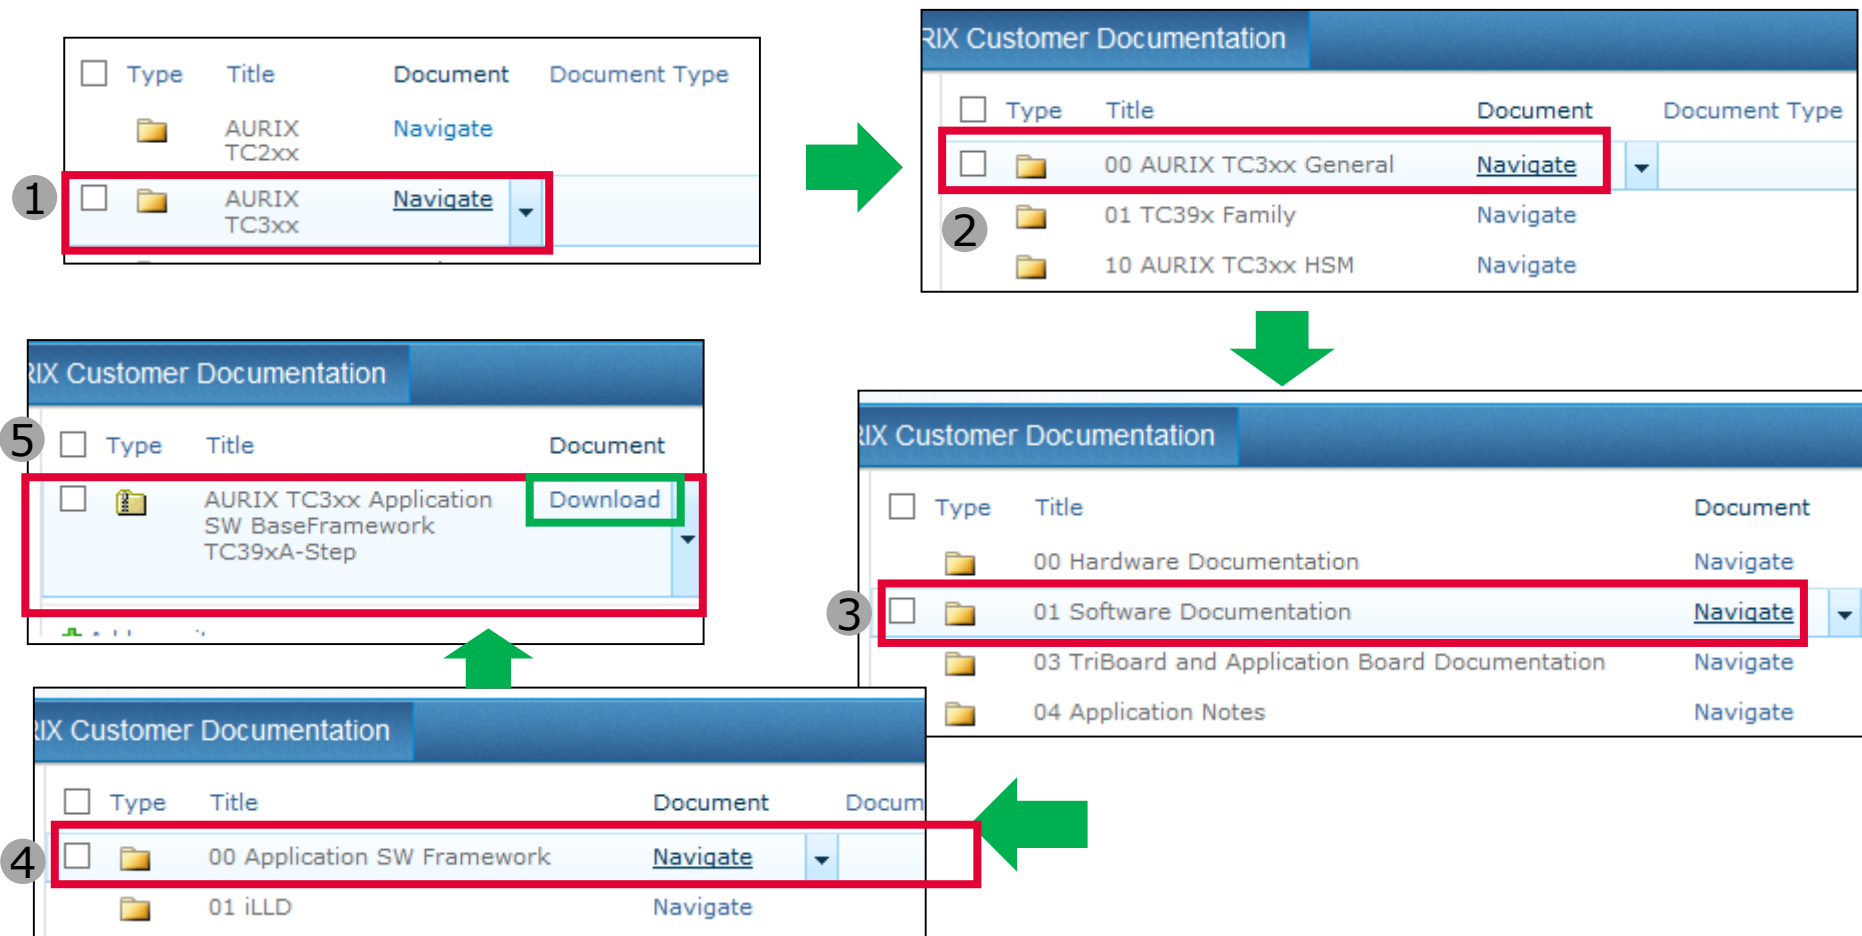

- › Navigate to your selected installation folder

- › You have successfully installed the SW environment, now we only need the Template projects

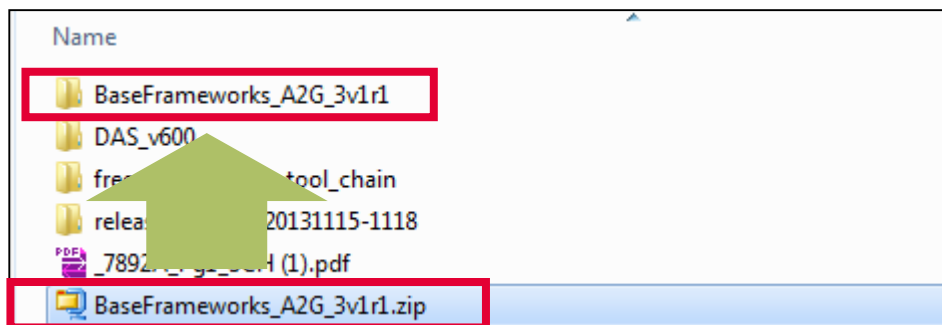

Install Infineon Project Templates (1)

- › On MyInfineon, navigate to the AURIX Customer Documentation share

Install Infineon Project Templates (2)

- › Extract the downloaded zip file

- › Run the installer

Name	Date modified	Type	Size
BaseFrameworks_A2G_3v1r0.exe	05.08.2016 14:39	Application	2.060 KB

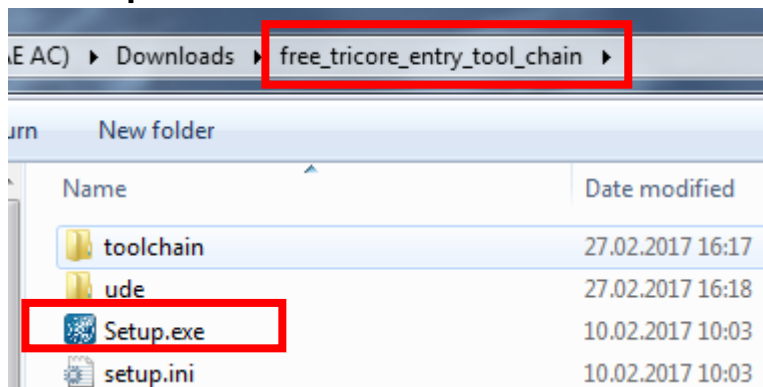

Free Entry Toolchain Installation

- › Get your license key from Hightec
- › <http://free-entry-toolchain.hightec-rt.com/>
- › Download the Toolchain installer

free_tricore_entry_tool_chain.zip

- › Unzip the file to a folder and enter the folder

- › Install the Free Entry Toolchain by running the **Setup.exe**

Part of your life. Part of tomorrow.
